## Employment

SEPTEMBER 2010 - JULY 2011  
Hotel Communications Network  
*PHP Developer*

Managed a project using specialized hardware, and an MVC-style framework (CakePHP). Managed and maintained databases, and high level system design. Defined requirements, divided project into tasks, created and updated time estimates, tracked progress, and managed expectations between business and development teams.

NOVEMBER 2007 - AUGUST 2010  
Magmic Games  
*Web Developer*

Created and maintained e-commerce website in PHP for desktop, iPhone, Windows Mobile, and BlackBerry devices. Integrated payment providers, set up and maintained Premium SMS services, as well as maintained and extracted data from MySQL databases.

SEPTEMBER 2004 - MAY 2007  
Mount Allison University, The Argosy  
*Production Manager*

Laid out articles, designed the front cover and centrefold, created themed supplements, as well as ensured consistent design elements across the whole paper.

DECEMBER 2003 - PRESENT  
Animaritime  
*Chairman & Web Administrator*

Organize a three-day event with panels, lectures, international guests, as well as advertising and scheduling staff. Also includes managing web content, designing and developing website style, and performing web updates.

## Contract Work

*Worked as a freelance developer on a variety of corporate & individual websites. Provided Wordpress, Drupal and Joomla customization, design and implementation.*
